

EUROPEAN FEDERATION OF CLEAN AIR AND
ENVIRONMENTAL PROTECTION ASSOCIATIONS

The European Symposium on Environmental Protection

Annual report 2017

In 2017 several EFCA Members organised international scientific events. GUS, in cooperation with KIT, hosted the 6th EFCA-symposium on Ultrafine Particles. CAPPa, hosted Air Protection 2017. KRdL im VDI/DIN arranged a third Expert Forum on Atmospheric Chemistry in Frankfurt. At the Assembly meeting in Primosten, the presidency was handed over from Thomas Reichert, GUS to Andrzej Jagusiewicz, PIGE.

GUS, in cooperation with KIT and EFCA, presented its 6th symposium on Ultrafine Particles – Air Quality and Climate. The programme reflected the trend in present research: more results on the chemical composition of nanoparticles, attention to nucleation as a source of nanoparticles; new results on their health effects. As usual, the venue was in Brussels. For the next Ultrafine Symposium the link to DG Environment should be reinforced again.

CAPPa hosted Air Protection 2017, its 10th Croatian Scientific and Professional Conference in Primosten. EFCA contributed to the programme with a special session on “Air Quality in Europe – Current State and New Challenges” which was chaired by EFCA’s vice-president, Vladimira Vadjic.

Members of EFCA supported meetings from TFTEI with the UN-ECE convention on long range transboundary air pollution in Rome, October 20, 2017 and The Clean Air Forum on November 16 and 17 2017 in Paris.

Membership remained constant at 11 Full Members, 2 Associate Members; 3 associations have Observer status.
